

OUALID AIT ALLA

Data Scientist

oualidaitalla18@gmail.com | +2126 09 83 12 77 | Mghila,Beni Mellal, Morocco

PROFILE INFO

I'm a master's student in Data Science and Information Systems Security with strong interest in AI, Machine Learning, and Cybersecurity. Passionate about transforming data into intelligent solutions and building secure digital systems. Open to opportunities in data, AI, and security-focused roles.

TECH SKILLS

- Data Science & Machine Learning
- Artificial Intelligence
- Cybersecurity & Information Systems Security
- Databases & Big Data

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Continuous Learning
- Team Collaboration
- Technical Communication

LANGUAGES

- Arabic: Native
- English: Intermediate
- French: Intermediate
- Spanish: Beginner

EDUCATION

2025 — **Bachelor's in Data Science & Information Systems Security**

Data Science, AI, Database Systems, Network Security,Cybersecurity, Cryptographiy Machine Learning Fundamentals, Information Systems Security, Programming (Python, SQL, C, HTML5)

2024 — **Undergraduate Diploma in Mathematics & Computer Science (DEUG)**

Linear Algebra, Calculus, Probability & Statistics, Discrete Mathematics, CMS, Database Fundamentals, Introduction to Algorithms, Computer Systems

2023 — **High School Diploma, Physical Sciences – Al Massira, Azilal**

Mathematics (Algebra, Trigonometry, Calculus, Geometry), Physics (Mechanics & Electricity), Computer Science basics, Statistics

2022 — **High School Diploma, Mathematical Sciences – Al Massira, Azilal**

EXPERIENCES & PROJECTS

2025 — **Machine Learning**

Car Price Prediction System

- Built a machine learning model to predict car prices based on features such as brand, model, year, mileage, and engine specifications
- Performed data cleaning, feature engineering, and exploratory data analysis (EDA)
- Trained and evaluated regression models using Python libraries

Image Classification with PyTorch

- Built an image classification model using deep learning
- Implemented neural networks with PyTorch
- Trained and tested the model on labeled image datasets

2024 — **Cybersecurity & Information Systems Security**

Android Device Security Testing

- Conducted security testing on an Android device using Kali Linux and Metasploit
- Studied vulnerabilities and attack vectors in a controlled, ethical environment
- Analyzed security weaknesses and proposed mitigation techniques

2023 — **Web Development & Information Systems**

Hotel Management System (PHP)

- Developed a hotel management web application using PHP
- Implemented features such as room management, reservations, and user handling
- Connected the system to a database for data storage and retrieval
