PROFESSIONAL SUMMARY

Master's student in Data Science and Information Systems Security with practical projects in AI, machine learning, generative AI, data analytics, and secure intelligent systems. Built RAG assistants, protected AI chat, full-stack web apps, regression models, image classification workflows, and cybersecurity learning labs while seeking an internship.

EDUCATION

Master's student in Data Science and Information Systems Security **2026**
Sultan Moulay Slimane University, Polydisciplinary Faculty of Beni Mellal
Graduate studies focused on data science, artificial intelligence, cybersecurity, and secure information systems.

Bachelor's in Data Science & Information Systems Security **2025**
Sultan Moulay Slimane University, Polydisciplinary Faculty of Beni Mellal
Coursework includes data science, AI, database systems, network security, cybersecurity, cryptography, machine learning fundamentals, information systems security, Python, SQL, C, and HTML5.

Undergraduate Diploma in Mathematics & Computer Science (DEUG) **2024**
Sultan Moulay Slimane University, Polydisciplinary Faculty of Beni Mellal
Coursework included linear algebra, calculus, probability and statistics, discrete mathematics, CMS, database fundamentals, algorithms, and computer systems.

High School Diploma, Mathematical Sciences **2023**
Al Massira, Azilal

High School Diploma, Physical Sciences **2022**
Al Massira, Azilal

TECHNICAL SKILLS

Programming: Python, TypeScript, JavaScript, SQL, C, PHP, HTML5
Frontend: React, Vite, Next.js, Tailwind CSS, Responsive UI, Dark/light themes
Backend and APIs: Node.js, Express, Next.js API routes, REST APIs, JWT auth, HTTP-only cookies
Data Science: Data cleaning, Feature engineering, Exploratory data analysis, Regression modeling
Machine Learning & AI: Machine learning fundamentals, Artificial intelligence, PyTorch, Deep learning basics, Image classification
Generative AI and RAG: RAG, Embeddings, Vector search, Ollama, OpenAI, OpenRouter, Prompt guards, Document parsing
Mathematics for ML: Linear algebra, Calculus, Probability, Statistics, Discrete mathematics
Cybersecurity: Information systems security, Network security, Cryptography, Kali Linux, Metasploit, Helmet, CORS, Rate limiting, Zod validation
Databases & Information Systems: MongoDB, Mongoose, Prisma, SQLite, Database fundamentals, Information systems, Big data fundamentals

SELECTED PROJECTS

BachelorAI Tutor **2026**
Technologies: TypeScript, React, Vite, Tailwind CSS, Node.js, Express, MongoDB, Mongoose, Ollama, RAG, Embeddings, Docker
Parse PDF, DOCX, TXT, and Markdown files, then chunk and embed the content for retrieval.
Links: https://github.com/gimuser/bachlor-ai-tutor

Islamic AI Chat **2026**
Technologies: TypeScript, React, Vite, Tailwind CSS, Node.js, Express, MongoDB, Mongoose, OpenAI, OpenRouter, Ollama, JWT
Support OpenAI, OpenRouter, and local Ollama providers.
Links: https://github.com/gimuser/repos-islamic_ai_chat

Maison Global Store **2026**
Technologies: Next.js, TypeScript, Tailwind CSS, Prisma, SQLite, Argon2id, Zod, Stripe, Docker
Prisma models for users, OAuth accounts, sessions, verification codes, products, events, orders, order items, and payment attempts.
Links: https://github.com/gimuser/global-affiliate-store

Car Price Prediction System **2025**
Technologies: Python, Data cleaning, EDA, Feature engineering, Regression models
Perform exploratory data analysis and feature engineering.

ACADEMIC AND PERSONAL PROJECT EXPERIENCE

Academic machine-learning project work **January 2025 - June 2025**
Beni Mellal, Morocco | 6 months
I built a car price prediction system using data cleaning, feature engineering, EDA, and regression model evaluation.

Cybersecurity learning project **March 2024 - May 2024**
Beni Mellal, Morocco | 3 months
I studied Android device security testing with Kali Linux and Metasploit and proposed mitigation techniques.

Web development project **March 2023 - June 2023**
Beni Mellal, Morocco | 4 months
I developed a PHP hotel management system with room management, reservations, user handling, and database persistence.
